Fingerprint Reader

Key Features:

- Rugged Fingerprint Algorithm: Equipped with most reliable fingerprint matching algorithm to ensure unrivaled accuracy with best verification results. Auto finger update helps in keeping the track of finger changes over the period thus adequately taking care of dry, wet & swollen fingers.
- Field Upgradable Firmware: Facility to onsite upgrade the firmware over Ethernet interface so that any customization or new version can be easily upgraded without any need of removing the device.
- Multiple RFID Technologies: Supports all latest RFID technologies with inbuilt EM reader and option of having Mifare/HID iClass/HID Prox. Fingerprint template can be stored on a smart card with HID iClass/Mifare technology to facilitate data portability & unlimited users without being dependent on the device template capacity.
- Excellent Price Performance Ratio: With a lower price to performance ratio ROI is automatically enhanced, the factor contributing to higher ROI is not only very competitive pricing but also higher accuracy rate offered by the product.

➢ Free Hardware and Software Support

➢ 1 Year Hardware Warranty

Company Profile

Introduction

Explore a world of wide-ranging industry Services aimed at making your business more productive and profitable. Cherish the experience of working with dedicated professionals. Nurture an association based on trust and mutual respect.

Our specialty solutions and services enable you to focus on your core domain. Offload your non-core tasks to us; now enjoy better cost control, greater resource optimization and improved customer relationship.
